

Web To Print & Technology Services

On-line design and print management that you control.

Teuteberg's Web-to-Print and Technology Services provide you with a variety of innovative ways to design, place, process and manage your printing needs—any time of day. Create documents instantaneously, then send and track your orders with read-to-print-and-ship results! Work from anywhere you or colleagues have an Internet connection. All orders are verified before printing to ensure project quality and detail.

Design & Print That You Control:

Direct Mail

Reports

Sales and Marketing Collateral

Welcome Kits

Follow-up Information Requests

…And much more!

Our online services are customized to your exacting requirements!

Web-to-Print

On-demand Design, Printing and Distribution

Web-to-Print is one of the hardest working on-line technology solutions in our service portfolio. It's perfect for organizations where multiple associates are involved with ongoing internal or external communications activities. And it enables you to control the look, content and feel of your digitally produced materials, while adhering to your organization's exacting standardization requirements. If you're looking for ways to extend your communications reach while maintaining creative content control at a lower total cost, Web-to-Print is for you!

Client Access/Online

Complete Account Visibility and Order Management

Managing your own print and fulfillment processes is easy with Teuteberg's Client Access/Online. This service provides you with secure, password-protected access to a wide array of services. Getting setup is fast, plus we'll customize the options you wish to manage. Our Customer Service representatives also will provide convenient training for you and your authorized personnel!

With complete account visibility, you can now take control of a variety of services, including:

- Managing inventory stock
- Ordering Print-on-Demand items
- Establishing automated reorder levels
- Viewing or printing inventory and cost reports
- Releasing warehouse stock for shipment
- Tracking order shipments
